30th August 2018

Dear Parents,

As part of our Science work, we will be conducting an investigation which requires the children to use their senses to solve a problem.

The children will be involved in tasting and smelling activities and as such we need to ensure that all children are able to take part in these activities and have no allergies or intolerances to the materials we are using.

The taste test will involve children eating small pieces of apple, salted popcorn, cucumber, fruit jelly sweets and tinned grapefruit. The smell test will involve children smelling pieces of cotton wool in cups covered with pierced cling film which have been soaked in peppermint extract, vinegar, perfume, coffee and garlic oil.

Please advise your child's class teacher by Friday 7<sup>th</sup> September if they are unable to taste or smell the items listed above.

Many thanks,

Miss Baum, Miss Bennett and Mrs Taylor  
Year 1 Teachers
